

## **Recommencement of Killalea Project**

**After being on hold since March 2020, Reflections has recommenced work and face-to-face consultation on the Enhancement Project for Killalea Reserve and the associated Holiday Park. Previously postponed community engagement meetings will start next week from Monday, 22 March 2021.**

These initial engagement meetings are a mix of government, industry, business and representatives from community organisations and groups. We are expecting up to 180 stakeholders to take part in these initial consultations which are adhering to a strict Covid-safe plan.

The community are also invited to visit the Reflections Engagement Hub at <https://reflections.engagementhub.com.au> to provide their feedback online via an interactive map of Killalea from Monday, 22<sup>nd</sup> March 2021. Any questions can be directed to [KillaleaFeedback@reflectionsoliday.com.au](mailto:KillaleaFeedback@reflectionsoliday.com.au).

Reflections is committed to better understanding the community's concerns and priorities and look forward to clarifying misconceptions about this project. These initial community sessions are just the start of a broader consultation process.

Respecting the local environment and what our guests, the community, and visitors to the area love about Killalea Reserve remains a priority for Reflections Holiday Parks.
